

Dear colleagues,

We inform you that we have free production capacities and we are looking for subcontracting in the field of metalworking.

We offer our free capacities in the field of mechanical machining of metals: turning, milling and grinding processes for machining parts of medium and large series.

We have machinery and equipment as follows:

Vertical Machine Center FIRST MCV 1100 – 2 units

Processing on axis X – 1100 mm; processing on axis Y - 700 mm; processing on axis Z - 610 mm; 4-axis rotating table - Yes; maximum table loading - 1000 kg.

CNC Turning center GA 2000 M – 3 units

Axis C - Yes; axis Y - Yes; Lunette - Yes; maximum rod diameter up to 51 mm; maximum turning diameter of turning up to 350 mm; maximum length of tuning work up to 624 mm; positioning accuracy up to 0,005 mm

CNC Turning center GS 200 MY– 4 units

Axis C - Yes; axis Y - Yes; Lunette - Yes; maximum rod diameter up to 51 mm; maximum turning diameter up to 340 mm; maximum turning length up to 600 mm; positioning accuracy 0,005 mm

We also have universal milling, grinders and turning machines.

We look forward to receiving your inquiries by e-mail: office@vrlift.com.

We hope we can work together in these new conditions!
