EURODETRA

Our mission is to be there when it matters.

ABOUT EURODETRA

Construction and industrial projects demand a contractor you can rely on – from the first meeting to system commissioning. Eurodetra is a team of 80+ qualified engineers, ready to deliver where and when it matters most.

Our specialisation is straightforward: if there’s a cable on site – it’s our domain. Electrical installation, low-current systems, solar power plants, automation, industrial equipment – one contractor, one responsibility.

We work with residential complexes, public buildings, industrial facilities and shipbuilders across Lithuania, Finland, Germany and Sweden. Clients come back – because they know the job will be done on time and without compromise on quality.

MAIN VALUES TO OUR CLIENTS

Service on-demand – when you have it all planned.

Flexible size of our teams – when you want it built faster or larger.

Fast mobilization time – when you need works to start on your site in 48 hours (Europe)

Dependable – available most of the time, for when you need it the most.

Reliable – our employees are what makes us and the customer proud. Constantly.

Wider approach if needed – when you want more than just a team.

“Eurodetra would be useful to any organization as a reliable subcontractor. They are strategic, hardworking, reliable, professionals in their field, capable of implementing all projects, so you will definitely not be disappointed if you choose them as your partners.”

Dennis Olsen,
Managing Director

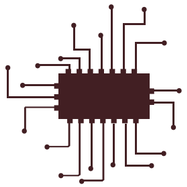

Dennis Olsen

“We highly recommend Eurodetra for any relevant project. They consistently demonstrated: exceptional quality of work; efficient and timely execution; excellent communication; problem-solving skills and professionalism.”

Agnes Prenclava,
Project coordinator

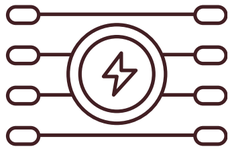

OUR SERVICES

www.eurodetra.com

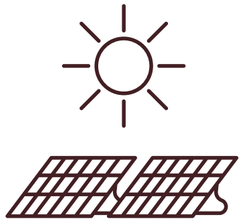

Electrical systems

- Internal electrical wiring
- External electrical wiring
- Installation of lightning conductors
- Measurement of resistance

Low-current systems

- Security systems
- Fire protection systems
- Video surveillance systems
- Access control
- Indoor and outdoor telecommunications
- Building management systems
- Automation of engineering systems
- Automation of production plants
- Smart home systems

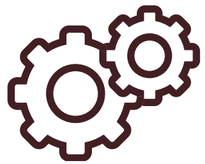

Installation of solar power plants

- Installing solar power plants on a pitched roof
- Installation of solar power plants on a flat roof
- Installation of solar power plants on the ground

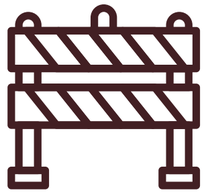

OUR SERVICES

www.eurodetra.com

Mechanical equipment

- Repair of biofuel plants
- Conveyor repairs
- Installation and dismantling
- Service and repair of steam turbine generators
- Repair and servicing of presses
- Various-purpose welding
- Other locksmith work

Developing infrastructure for fibre-optic internet lines

Our modern fibre optic installation equipment and qualified specialists allow us to carry out the following work to a high standard:

- Excavation works
- Asphalt and soil milling works
- Cable laying
- Construction of utility lines using innovative trenchless technologies
- Trenchless installation of optical fibres
- Welding of fibre couplings

EURODETRA

RESIDENTIAL PROJECTS

Our experience

EURODETRA

"ŽALIASIS SLĖNIS" SETTLEMENT IN KLAIPĖDA DISTRICT

Scope of works:

- electrical installation;
- smart home management systems;
- fire detection and protection systems;
- street lighting;
- telecommunications.

Our experience

EURODETRA

"BIG" 3 MULTI-STOREY RESIDENTIAL APARTMENT BUILDING IN KLAIPĖDA

Scope of works:

- electrical installation;
- lightning protection;
- access control;
- fire detection systems;
- telecommunications;
- HVAC management system.

Our experience
